Sir:

Please enter the following amendments to the claims prior to the examination of the application.

IN THE CLAIMS:

Please AMEND Claims 3, 5-8, and 10-16 as follows:

3. An electric motor according to claim 1, wherein

said mechanism for shifting one field magnet with respect to the other field magnet is constructed so that one field magnet may be fixed to a shaft, and the other field magnet may be provided movably and freely with respect to said shaft, and said field magnets have screw functions to be connected to each other by forming a bolt screw portion in said shaft and a nut portion inside said second field magnet, and
